## NEGOTIATIONS ON

Between General Botha And Lord Kitchener.

Not Known Whether Botha Is In Pretoria, In Person.

Believed He Must Be In Close Touch With Kitchener, Anyway.

LONDON, March 7, 2:00 A. M.—Private information that has been received here confirms the reported negotiations between Lord Kitchener, Sir Alfred Milner and Commandant General Louis Botha. Nothing is known as to Botha's actual presence in Pretoria and no paper here publishes a statement that he is there. He must, however, be in personal or close touch with Lord Kitchener. The Associated Press learns that Sir Alfred Milner went to Pretoria to assist Lord Kitchener in the negotiations, the length of which, it appears, is due to Botha's desire to consult with Acting President Schalk-Burger at Pietersburg, and to get terms applying to the whole Boer force. Militating against this is Lord Kitchener's doubt as to Botha's ability to control De Wet and the other Boer leaders in the field.

### To Clear Out The Boers.

LONDON, March 7, 2:30 A. M.—A despatch to the Daily Mail from Colesberg, dated March 5th, says: "A big movement is on foot to clear the whole of Cape Colony, from north to south, of all Boers."

### TRAINMEN ALL DRUNK.

LONDON, March 6.—A despatch from Moscow to the Mail says: "During the recent heavy snow storms fifty men were sent to clear the snow from a railroad cut near Wologo, on the Russian Ural line. They were just leaving the cut when a train came down upon them at full speed, crushing about thirty of them into a horrible mass. Their clothing clogged the axles and stopped the train. Inquiry revealed the fact that the engine driver and all the guards of the train were drunk."

### VICE PRESIDENT APPLAUDED.

WASHINGTON, March 6.—Vice President Roosevelt was today again the principal figure of interest at the opening of the senate. When he called the body to order, a wave of applause swept over the thronged gallery. The vice president was evidently impatient at the demonstration, for sharply rapping the desk with his gavel, he gave warning to the spectators that a repetition of the applause would lead to an order to clear the gallery.

### KILLED HIS WIFE.

Boston, March 6th.—Thomas N. Burns of South Boston, who was married here about six weeks ago, killed his wife this afternoon by cutting her throat with a razor. He was afterward arrested. The police say that Burns lived with his wife only a short time, when they separated and he went to New York. Coming back today, he went to the place where his wife lived and killed her.

### HAY PRAISES HIMSELF.

WASHINGTON, March 6.—Secretary Hay was today called upon to testify to his own ability and fidelity. He signed his own commission, as he does those of all the cabinet officers, and in so doing he declared that he placed implicit confidence in himself and his own fidelity and ability.

### WEATHER INDICATIONS.

WASHINGTON, March 6.—Forecast for New England: Fair Thursday, with rising temperature, winds generally southwest and fresh on the coast; Friday fair.

### CYCLIST SOLDIERS.

LONDON, March 6.—The war office has ordered the organization of eight cyclist companies, to consist of 120 men each, for service in South Africa.

### THAT CUBAN UPRISING.

HAVANA, March 6.—An investigation of the report circulated in the United States by a news agency that the United States secret service men had been informed of a plan for a Cuban uprising, which had been avoided only by the efforts of the leaders to hold the revolutionists in check, has brought forth the following statement from the special commissioner of Cuba in Washington: "I have made no statement about a Cuban uprising. If there are persons interested in fomenting a revolution, they are not Cubans who are in favor of independence, but parties desiring to see Cuba crushed forever."

### NAVAL ORDERS.

WASHINGTON, March 6.—Rear Admiral Farquhar will probably be relieved in May of the command of the North Atlantic squadron and ordered to Washington for shore duty, upon the arrival of Rear Admiral Tiggison after the spring maneuvers. Capt. P. H. Cooper will be detached from command of the Iowa about April first and be placed on waiting orders. He will be succeeded by Capt. T. Perry, now naval secretary of the lighthouse board, who will be replaced by Capt. W. Maynard.

### DURANT NOT DEAD.

PARIS, March 6.—John Wilson Durant, of Albany, N. Y., who has been living in Paris with his mother for two years, and who was reported to have been killed in a duel at Ostend with a Russian count, is still alive. The report was an invention.

### A DORMITORY GUTTED.

CAMBRIDGE, MASS., March 6.—Trinity hall, one of the dormitories of Harvard college, was gutted by fire tonight, causing a loss of \$10,000. The loss to the students on furniture and other property will be about \$5000 more.

### HELD FOR DISTRICT COURT.

OMAHA, March 6.—James Callahan, charged with being concerned in the Cudahy kidnapping case, today waived examination at a preliminary hearing and was held in the sum of \$7000 for the district court.

### NICARAGUAN JUDGE KILLED.

MANAGUA, NICARAGUA, March 6.—Judge Meza of the Nicaraguan supreme court was killed here yesterday by Senor Lacayo, whose father was well known in Nicaraguan affairs.

### A GOVERNMENT TRICK.

LONDON, March 6.—John Redmond said to a representative of the Associated Press today: "The scandal last night in the house of commons was the direct result of trickery on the part of the government."

### TUNNEL ON FIRE.

CENTRAL CITY, COLO., March 6.—The Mole Pile tunnel, piercing the Utah hills at Apex, seven miles west of here, is on fire. Three miners are imprisoned in it and are believed to have perished.

### TO REPLACE THE OREGON.

WASHINGTON, March 6.—The big battleship Wisconsin has been selected to replace the Oregon in Asiatic waters, when that vessel is relieved in the near future.

### RYE REPUBLICAN CAUCUS.

At a largely attended caucus of the republicans of Rye, held on Tuesday evening, the 5th inst., the following nominations for town officers were made:

Town Clerk, Blake H. Rand; Treasurer, Fred D. Parsons; Selectmen, John T. Marden, Charles M. Rand, Horace Sawyer; Auditors, Thomas H. Perkins, Chester D. Drake; Fish and Game Warden, Roscoe H. Berry; Library Trustee, George N. Perry.

### TONIGHT'S LECTURE.

The closing lecture in the Lyceum course will be given at Perce hall this (Thursday) evening by Rev. George W. Gile, whose subject is to be "Columbia River and the Cities of Puget Sound." There will be a large number of beautiful and vivid illustrations, and as the theme is particularly interesting, a very pleasant entertainment is anticipated. As it is the last lecture in the course, there should be a large attendance.

## A PIECE OF IRON

Thrown At The Emperor Of Germany.

While He Was Driving To The Railroad Station.

Man Who Did It, An Epileptic, At Once Arrested.

BREMEN, March 6.—While Emperor William was driving from Rapskall to the railroad station yesterday, a man named Dietrich Weiland threw a piece of iron into the carriage. Weiland was immediately arrested. The emperor is said to have been slightly injured in one cheek, but he continued his journey without interruption. Weiland is an epileptic.

### NEW MUSIC FOR MARCH.

It is interesting to note that H. W. Petrie, the celebrated composer of "Asleep in the Deep," has written a splendid new bass song entitled "Davy Jones' Locker." It is a decided hit.

One of May Irwin's great successes is entitled "Everything is Lovely and the Goose Hangs High." It is by a New York newspaper man, George Waugh Arnold, of the World, and it is an exceedingly original and clever song. Williams and Walker, the popular comic comedians, authors of "Why Don't You Get a Lady of Your Own" and "He's Up Against the Real Thing Now," have a new song which is a big hit. It is called "The Fortune Telling Man."

A novelty in a popular song is Ed. Rogers' "Everybody Has a Whistle Like Me," in the chorus of which there is a strain to be whistled. The song has a catchy melody which is easily remembered.

"Phoebe Thompson's Cakewalk" is the name of a new instrumental oddity which is enjoying great popularity. It has a vim-and-go to it which is exceedingly up-to-date.

The above musical publications are issued this month by Jos. W. Stern & Co., "The House of Hits," who will be pleased to send their catalogue, upon request to their offices, 34 East 21st street, New York.

NOT TAXABLE.

The assessors of taxes claim that certain persons in the city, of both sexes, hold a great deal of mining stock, notably Calumet & Hecla and also Quincy Mining Co. They served notices upon and summoned in about a dozen such persons on Tuesday night, the 5th inst., to show cause why a tax for 1900 should not be assessed upon them for such stock on the ground that they had omitted it in April last.

Frank & Marvin and Page & Bartlett appeared for the larger part of these persons, and at the hearing proved that the property of these corporations was taxed at the full value of the stock in the states where the corporations are located. Hence the shares of stock are not taxable anywhere, as it would be double taxation, which is forbidden by our constitution, statute laws and decisions of the supreme court.

### WHY SO MANY FAIL.

The Reason So Many Catarrh Remedies are Unsuccessful.

There are few troubles, for which there are so many remedies and so called "cures" as for catarrh and it may be added there are few diseases so difficult to really and permanently cure.

Inhalers, sprays, powders and douches are all applied locally and give temporary relief, often for only a few hours, and it is doubtful if anything like a real cure of catarrh was ever accomplished by the use of local applications.

Catarrh is a constitutional disease; it is in the blood like rheumatism and to cure it requires an internal medicine to act upon the blood, to drive out the catarrhal poison from the system entirely and anyone can readily see that a salve or powder or inhaler which simply clears off the mucous membrane of the nose and throat can have no effect on the real cause of catarrhal disease.

The remarkable success of the new catarrh remedy, Stuart's Catarrh Tablets is because it drives out of the system through the natural channels, the catarrhal poison, the germs of grip, bronchitis and consumption and causes the hawking, spitting and gagging because the excessive secretion is no longer supplied when the blood is made healthy from the regular use of Stuart's Catarrh Tablets.

The remedy is in the form of large 20 grain lozengers, pleasant and palatable, composed only of wholesome antiseptics and so safe to use that little children use them with perfect safety and benefit if the little one is suffering from colds, croup or cough from any cause.

Stuart's Catarrh Tablets have been on the market scarcely one year, yet they have met with such popularity and success that druggists everywhere in United States and Canada now have them in stock and report a constantly increasing demand for them.

### SURPRISE PARTY.

Very Pleasant Occasion At Lyman A. Holmes' Home.

Lyman A. Holmes, who was married not many weeks ago, received a pleasant surprise from about a score of friends, on Wednesday evening, the 5th inst. The party suddenly appeared at his home on Pleasant street and proceeded to make themselves comfortable. The evening was one of jollification and in the midst of it, a valuable couch was presented to the host, as an excuse for the unexpected visit. Mr. Holmes was equal to the emergency, making a response that "took." The company was served with refreshments.

A fine entertainment was rendered, as follows: Musical selections, Bert Moore and Lyman A. Holmes; stump speech, Charles Rice; harmonica selection, Eddie Hepworth; recitation, Osgood T. Barnes (son of Senator Barnes of Chelsea, Mass.); songs and recitations, Ralph A. Parker; recitation, E. G. Monroe; recitation, A. O. Benfield; recitation, Bert Moore.

All the talent was suited to the occasion and the entertainment was received with much applause.

The lot of presenting the couch to Mr. Holmes fell to Alderman Eben Blaisdell, who did himself proud. The repast served by the host was bountiful and elaborate, and everybody did it full justice. It was after midnight when the party dispersed, with happy remembrances of their generous treatment by Mr. Holmes.

Those present were as follows: Ransom E. Smith, Charles L. Hinkley, J. J. Green, A. O. Benfield, Ralph A. Parker, John H. Taylor, John Woods, Bert N. Moore, Eben Blaisdell, Eddie Hepworth, Ernest Oldfield, E. G. Monroe, Charles Rice, Osgood T. Barnes.

### THE GIRL FROM MAXIM'S

Following the engagement of Henry Miller in Richard Savage at the Park theatre, Boston, comes that spiliy-daring farce from the French, The Girl From Maxim's, which will play a fortnight's engagement at the Park, beginning Monday evening, March 18. When this lively play was seen in Boston last it made a decided success. This season's cast is practically the same as the original, except that the part of Pauline, the girl, is assumed by Miss Hattie Williams, and that of Dr. Pottypont, the physician, who, it will be remembered, goes out for a night's frolic and makes the acquaintance of the frisky Moulin Rouge dancer, will be played by Thomas Burns.

## ROBBED A SAFE OF \$170.

Thief's Bold Work at Kearsarge Hotel Office.

While the Proprietor Was Out the Safe Was Scuttled.

More Money Was Overlooked in the Search of the Safe.

One of the boldest and most successful robberies that has taken place in the city for a long time, occurred at the Kearsarge Hotel on Congress street during the noon hour on Wednesday.

The sum of \$170 was taken from the safe in a hasty scuttling by a sneak thief. Nearly \$50 more was overlooked by the thief in his hurried search.

The proprietor, Mr. E. T. Cotton, had placed the money in the safe at about 12 o'clock. A short time after he left the office for about five minutes and when he had occasion to visit the safe shortly after his return to the office, the money was missing.

The money was in bills. It is believed that someone acquainted with the premises did the work and the police, who were notified soon after the robbery was discovered, are working on this theory.

### AT THE NAVY YARD.

The officials of the yard are crying aloud for more water.

Supt. Treadwell is making estimates to construct the new quay walls.

The Raleigh will be moved under the shears and then she will go into the dry dock.

The rest of the buildings authorized for this yard are to be erected by contract.

Several additional workmen have been required in the steam engineering department.

A strong movement is being made to retain Rear Admiral Cromwell in command of this station.

Stenographer Schwarz of the captain of the yard's office is enjoying a ten days' leave of absence.

A large lot of seasoned oak timber is being shipped from this navy yard to the Puget Sound naval station.

It is now Chief Constructor Francis T. Bowles, U. S. N., and the officers of this yard appear to be satisfied.

It is expected that the electric light system at this navy yard will be completed and the current turned on, the 17th inst.

It appears to be the general impression that Rear Admiral Cromwell will be permitted to continue his tour of duty here, as he retires in February next.

John W. Chickering, janitor in the main office building at the navy yard, returned to duty on Wednesday, the 6th inst., after an enforced absence of several weeks, owing to the grippe.

An examination for the position of assistant inspector of granite, department of yards and docks, at this naval station, will be held at the yard on Friday, the 8th inst. The pay is \$5.04 per diem.

### GRAFFORT CLUB.

On Thursday, March 7th, at 4:30 p. m., Mr. Henry Lewis Johnson of Boston, former secretary of the Society of Arts and Crafts, will give a talk before the Graffort club, at Conservatory hall, on "Women's Work in Industrial Art." He will show, in connection with the talk, examples of women's work, consisting of a variety of carving, metal work, jewelry, needlework and illustrations and book cover designs. Public admission twenty-five cents.

### COLD THIS MORNING.

It has grown steadily colder since seven o'clock on Wednesday evening. Then it was ten degrees above zero, while at three o'clock this (Thursday) morning the mercury had descended to three degrees, according to the thermometer at Coleman's pharmacy. It was one of the most penetrating nights of the winter.

#### HIS RE-ELECTION PROBABLE.

The board of mayor and aldermen will probably re-elect Tax Collector James L. Parker at its meeting this (Thursday) evening. Such an action would be a merited compliment to the gentleman. He has proven an able and industrious official, always faithful in the fulfillment of his duties. His retention in office would be fitting recognition of his worth. It would also satisfy general expectation.

Here is hoping that New Hampshire earthquakes will confine themselves to a jar.

Chief Moore of the weather department predicted fair weather. It was a frost for him.

Vice President Roosevelt will be the most active and most prominent man that has ever filled the chair.

Several newspapers are busy finding a position for Senator Chandler. The senator is not looking for a job.

If De Wet continues to march five miles faster daily than the British, how long will it take the Englishmen to catch him?

Senator William E. Chandler has retired from the United States senate, but he will continue to be one of the foremost men in the public eye during the balance of his life.

The house of representatives has passed a law absolutely prohibiting the manufacture and sale of cigarettes in the state, but the law in regard to sales is not to apply to cigarettes imported and sold in the original package. This is about as consistent as attempting to regulate an onion-scented breath except by the use of onions grown in Nova Scotia.

While the defeat of the river and harbor bill will not be generally regretted, it is unfortunate that a measure carrying so many useful and meritorious appropriations should have failed because of a perfectly justifiable opposition to its provisions, says the New York Mail and Express. In other words, it is a hardship that important river and harbor improvement and other public work should be halted merely because the bill was loaded in the last stages of its career with indefensible jobs and steals for the benefit of undeserving projects. The manner in which the measure was beaten is also to be deplored, for while it was entirely in line with senatorial custom and precedent, it gives fresh encouragement to the arbitrary use of power which may sometime lead to the defeat of really proper and desirable legislation.

#### THE LAST OF LENTZ.

Congress is losing its coterie of burlesquesters. First the elongated Simpson (who will live in legislative history as "Socksless" Jerry) retired from the caucus; then Pettigrew (without a duplicate in this age, the stone age, or any other age), uttered one long blast of farewell and went back to overalls and jumper in Dakota; and now Lentz of Ohio throws down his cap and bells and is court jester no longer. He leaves behind him, in the halls of congress, a reputation as a kicker which outlasts the most remarkable performances of the Missouri mule (and everybody knows that a Missouri mule takes the premium in wiggling his hoofs at a mark.) Lentz may not be proficient at cotillions,—perhaps he knows nothing of driving a four-in-hand; but there is no doubt that he is an expert at kicking. He has never been out of practice. Everything with republican earmarks has drawn forth a snort of contempt from this Ohio populist-democrat-Dry-ite. When Lentz has taken the floor, even those lazy representatives who got into congress just to throw spitballs at each other and patronize the house cafe would listen. For when Lentz kicked, it was interesting. It never influenced the vote on a measure, but it was a valuable turn that the representative liked. In the midst of dry conference reports and other humdrum details of the session, a hearty four hours' kick from Lentz was refreshing as a pull at the cider jug in baying time. Yes, we shall always remember Lentz. He came

#### Conditions.

All that is necessary to enter is for the boy or girl to fill out the ballot which will be found on page four of each issue and send them to the Voting Department of the Portsmouth Herald.

#### The Prizes.

To the boy or girl receiving the largest number of votes up to April 2nd at 8 p. m., will receive a modern 1901 bicycle.

To the one receiving the second largest number a gold watch and chain to be selected from one of the jewelry stores in Portsmouth. The prizes will be first class in every particular.

Let every boy and girl in Kittery enter the friendly contest and induce their friends to support them. The votes will be counted by a friend of each one of the participants and the gifts will be placed on exhibition in Kittery at an early date.

#### CITY BRIEFS.

Rev. Joseph Lambert of Rye was in the city Wednesday on business.

Edward Harnden did not appear in police court this forenoon on a charge of assault.

Little Olga Beyer of Marcy street, who has been very ill for the past week, is greatly improved.

Harry C. Clark of Lovell street, who has been visiting friends in Lawrence, Mass., returned home on Wednesday evening.

Albert F. Gerry of Kittery was before the police court this forenoon and was convicted of being drunk on Market street. He paid a fine of \$5 and costs of \$5.33.

Children playing with matches set fire to a bed at the home of Richard Call on Wednesday afternoon. The fire was extinguished without an alarm. The children narrowly escaped being burned.

#### G. A. R. MEETING.

On Wednesday evening the Grand Army held their regular meeting in their hall on Daniel street and it was well attended. Considerable business was done and plans preparatory to Decoration day were discussed. Each year the ranks of this organization are gradually thinning out, and it is pleasing to see comrades who are left so energetic.

## ACROSS THE RIVER NEWS

### Death of Lena May, Daughter of Mr. and Mrs. J. D. Boulter.

Agitation for Better Streets, Lights, and Town Improvements.

The Old Steamer Mystic Has Left Us for Good.

The Herald is going to champion the cause of new sidewalks for this village, and better streets. It seems that everybody is anxious to have our principal streets in better condition and they are willing to pay the bills. The town is unfortunate in having no suitable material with which to build highways, but there are many people who favor either the purchase of a stone crusher or crushed stone. Certainly, nothing could be done that would increase the value of real estate more than such improvements and would make our village attractive to strangers. The lack of street lights and sidewalks is an evidence of a lack of public spirit. But we think that when the people really get started they will not stop until our naturally beautiful little village will rival any other town of its size in this locality. Every time a call is made upon the charitable feelings of the citizens of Kittery, the response is so prompt and so hearty that there is no chance to doubt the good intentions and good will of the public. Whenever a lodge or association of any kind is in need of money, the manner in which the public truly to the support is a strong proof of their public-spiritedness.

Therefore, it is safe to presume that when all hands get united in favor of sidewalks and other really necessary improvements, some good results will surely follow. The Herald will keep up this agitation until town meeting day and then the taxpayers can decide whether they prefer to walk in mud or on dry pavements. The Herald will welcome in its columns any discussion of this subject.

The old steamer Mystic has left the port for good. The old boat which has been a most familiar craft on the river since the days of steamboating between Kittery and Portsmouth, was sold a few days ago by the Portsmouth, Kittery & York street railway company to H. C. Howard of Portland and was used in part payment for the steamer Alice Howard, which was purchased from Mr. Howard. The old steamer has been hauled up near the power station at Kittery Point during the winter and was floated on one of the recent high tides. She was then inspected by the government officials and was taken to Portland under her own steam on Wednesday afternoon. The old boat looked rather seamy on account of a lack of paint, but her hull is said to be as sound as a nut. She will be put in thorough repair by Mr. Howard and will be used in towing in Portland harbor. The boat received a roasting farewell salute from the river steamers and tugs as she left for Portland.

The thirty-fifth anniversary of Whipple lodge of Good Templars was most fittingly celebrated at Wentworth hall on Wednesday evening. There was a large attendance of the members and great interest was manifested in the exercises. The following was the order of the exercises:

Ouening song,	Chorus
Cornet solo,	Harry Titus
Vocal solo,	Vienna Stinson
Reading,	Mrs. Carrie Manning
Piano solo,	Miss Stinson
Vocal solo,	Mr. Knight
Remarks,	Mr. F. E. Donnell, Mrs. Bartlett,
	a charter member of the lodge.
	Grand Chief, Templar Wiggins
	of Portsmouth, S. A. Jackson
	Miss M. Redden
	Mr. John Redden
	Rev. Mr. Hall

After the above exercises there was an elegant spread served by the young lady members and games and conversation occupied the time until a late hour. Member of Morrill lodge of North Kittery and Rockingham lodge of Portsmouth were present.

There was a fierce and long runaway in Kittery streets on Wednesday afternoon. The horse attached to the delivery wagon of a Portsmouth store became frightened for some reason near the navy yard station and ran until Jones avenue was reached, where the animal was stopped without much damage to the wagon. The seat was lost along the route of the runaway. The horse was not injured.

The many friends of Mr. and Mrs. Joseph B. Boulter of Everett, Mass., will be pained to learn of the death of their little daughter, Lena May. She was a bright little girl of about four years. The funeral will be held Friday afternoon at two o'clock from the residence of George D. Boulter and the services will be conducted by Rev. G. C. Andrews of the Methodist Episcopal church.

Miss Vienna Stinson is to sing at the coming reunion of the Kittery High school. Miss Stinson has shown remarkable talent in her selections, which have been heard during the last year and her friends predict a most satisfactory future for her.

The case of alleged larceny by one boarder at a Kittery Point boarding house, from another boarder and a room mate, has been settled out of court. The old case of marked money was worked very successfully, it is claimed.

Mr. Sewall Prince was reported to be very low this morning. He passed a very comfortable night, but had a sinking spell during the morning and is still in a critical condition.

The Ladies-Social circle connected with the Christian church meets this evening with Mrs. H. W. Trickett as the lower forelide.

Mr. George Sweetser has been unable to attend to his work at the navy yard for two days past, on account of sickness.

WAS RECOMMENDED.

Senator Urch Fights Against Restriction of the Work of Coroners.

The state senate occupied most of the time Wednesday in the discussion of a bill putting county coroners under the control of the attorney general or county solicitors. It was finally recommended for amendment.

The committee on incorporations introduced a bill authorizing the Granite State land company to build and maintain a bridge across Hampton river.

Senator Urch moved indefinite postponement of the coroner's bill. A division was called for by the same senator. Affirmative 9, negative 10, and the motion was declared lost.

Senator Remon thought the senators did not understand the matter, and explained the position taken by the committee in making the report. He said the bill was favored by the coroners and solicitors. Under the present law coroners had brought in exorbitant bills.

The proposed bill provides for the notification of either the attorney general or the county solicitor. The committee had no feeling in the matter. The bill ought to pass.

Senator Urch said he admitted the legal fraternity in some respects, but in his particular they propose to set aside the coroner, an old time official. The amendments adopted Wednesday added materially to the opposition to the bill. The senator gave in illustration of the delay which the proposed bill will cause. His hands are tied until the arrival of the officers named in the bill. He becomes a nonentity. There is no economy in the proposed bill. The passage of this bill will tend to delay the apprehension of a criminal. The bill lessened the right of the coroner. He hoped the motion to indefinitely postpone would prevail.

The senator from No. 6, said Mr. Urch, will admit that the bill passed by the House would not be considered for a moment, it was so unjust. He believed the coroner should be the officer to immediately proceed with the view of a dead body. The coroner can secure just as good evidence as a county solicitor or the attorney general. He is better fitted to judge than one who comes from a distance of forty or fifty miles.

Senator Chase said the previous speaker was an eloquent talker and he always took pleasure in listening to him. The Senator further explained why the committee had made the report in favor of the bill. In his opinion it was in the interest of economy, and further, in his opinion, it was in the interest of speedy justice.

Senator Urch asked why the coroners were before the committee. They were opposed to the original bill, and accepted this half way measure as the best they could get. The coroner is only authorized to view the body, no more.

Sen. or Leach feared the Senator was losing sight of the question at issue. There has been no cause for a coroner's inquest except to discover the testimony of unwilling witnesses. The reason for this legislation is that this matter has been abused all over the State. The county of Rockingham had within a few years paid over \$3000 for coroners' inquests which had amounted to nothing. The Senator cited cases in Belknap county, in one of which a contest arose between the coroner and county solicitor. He also cited cases in Merrimack county where inquests had amounted to nothing, especially one held in Franklin last winter. There is nothing in the claim that the proposed law will delay proceedings. The officers named have the power to delegate their duties if unable to be present immediately. He hoped the motion would not prevail.

Echoes from the Recent Interstate Convention at Concord.

The Boys brigade will hold their regular meeting at the rooms this (Thursday) evening.

The board of directors are to have a meeting soon.

The membership of the association is increasing.

Company B of the Boys' brigade have just received their new charter, of which they are very proud.

Secretary Roehn received many compliments at Concord for the excellent manner of keeping the records of the Interstate convention. Cameron Beck of Burlington, Vt., was Mr. Roehn's able assistant.

President W. P. Fiske and Secretary A. H. Gresley of Concord did all in their power for the comfort and enjoyment of the delegates of the convention.

The invitation to visit the Boston & Maine repair shops through the officials to the delegates of the convention was cheerfully accepted, and on Saturday a special train was provided to carry the delegation. Mr. Charles Wiggins, master mechanic of the shops, kindly piloted the delegates about, explaining all to them.

The writer had the privilege, with other delegates, to visit Touff's laundry of Concord, one of the best in the state. Mr. Touff is totally blind, but nevertheless, has been awarded several patents on irons, tank filling devices, etc. The water supply used in the laundry comes from an artesian well. This water is pronounced pure by experts.

Everyone is the Contest Seem to Have Plenty of Friends.

They Are Working Hard for the Success of the Contestants.

There are a number of changes in the Herald's Pan-American contest today. The friends of every contestant in the list seem to be active in the support of those who have entered and the enthusiasm in the clubs or the favorite members, is really surprising.

All hands are active. The firemen, the employees of the Portsmouth shoe factory, the Hibernians, the Portsmouth Bicycle club and the Piscataqua club are working in great shape for the friends who want to go to Buffalo on a popular vote at the Herald's expense.

The friends of the contestants are writing letters, soliciting votes and booming the thing along in good natured rivalry.

The changes today are as follows:

John F. Leary, A. O. H., 156

Harold N. Hett, Portsmouth Bicycle club, 100

William S. Fernald, Chemical Engine Co. No. 5, 32

Edwin F. Rowe, Warner club 11

George Jones, Kearsarge Engine Co., 1

**STRIKES A HIGH FINE.**

"I was troubled for several years with chronic indigestion and nervous debility," writes J. J. Green of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did more good than all the medicines I ever used. They have also kept my mind in excellent health for years. Since using Electric Bitters I am a different man and invigorated for work, and my women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Globe Grocery Co.

**HE SAID HE WAS.**

He Was Thought to be Out of Town, But He Wasn't.

It happened on the night when Ward and Vokes held forth at Music hall and all over a peroxide blonde who had taken the young man's fancy and had accepted an invitation to partake of food and refreshments after the show.

Now the young man in question had a young lady who regarded herself as an steady company and was much put out when he did not jump at the chance to take her to Ward and Vokes, when she naively informed him she had no engagement for that evening. He pretended a pressing business engagement on that evening which would take him out of town. The young lady attended the performance, just the same, going with a girl friend.

The young man was also there but stood to sit in the gallery by the fact that he was supposed to be out of town after the show the young lady seemed indignantly escorted her more timid companion to her home and was returning to her own boarding house when she suddenly received a shock. Across the street, directly beneath the glare of an electric light, was the young man who could not escort her to the theatre because he was going out of town, and coming on his arm was a blonde-haired, emerald stranger. There was a momentary pause, during which her heart went pit-a-pat, then, turning abruptly she retraced her steps and made for the nearest street crossing.

She would face them and let him know that she was aware of his duplicity. She gained the opposite side of the street in time to hear the farstranger inquire in silvery tones what time they closed down here in the country she had accomplished her purpose.

The young man had seen her and knew that she had recognized him. They both went their respective ways and are still walking in separate paths and all on account of the peroxide blonde who no doubt would fail, by this time, to remember whether she had ever been in Portsmouth, N. H., or not.

**For Over Fifty Years**

Ward and Vokes' Famous Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures whooping cough, croup, croup, and is the best remedy for Diarrhoea. It is a true and reliable medicine.

George F. Richards, register of probate, is indisposed by the grippe, and was unable to attend probate court at Portsmouth. His duties were delegated to Mrs. Richards.

**Mr. Fernald is Popular.**

Editor Voting Contest. Am much pleased to see among the names of those who have made a start in your Pan-American voting contest that of Will Fernald, the popular assistant of the Chemical Engine company. Mr. Fernald is a very popular young man and has hosts of friends here in the shoe factory who I am sure will save their votes for him. All up for Fernald and send him to Buffalo at the Herald's expense.

Cutting Room

Portsmouth, N. H., March 7, 1901.

The conditions of the contest are as follows, a most liberal offer:

The Portsmouth Herald agrees to send three residents of Portsmouth, who are either members of the Portsmouth fire department, a social club or of some secret society, to the Pan-American exposition, pay all their expenses from the time they leave, until they return, including a week in Buffalo, with board and lodging and admission to the exposition daily.

This offer beats anything ever announced by any newspaper in New England, and is so far above the expense and interest of a trip to the national inauguration that it cannot be mentioned in the same class.

The contest will not be restricted to gentlemen but will be open to any lady who is a member of the various secret societies or auxiliary societies in Portsmouth.

The trip will include stop over privileges en route and returning and first class accommodations will be provided. In order that every detail of the grand tour may be properly looked after, the publishers will either send an agent in advance or with the party to make arrangements.

Everybody knows that the Pan-American exposition at Buffalo is to be grander and greater in every way than the World's fair and the visit will be the event of a lifetime.

The contest opens today, Monday, March 4, when the first ballot appears and which will appear daily until June 1, next, the last ballot to appear on the latter date, and the three

**A NOVEL AND PLEASING AFFAIR.**

Miss Helen Pender entertained an assemblage of her friends at her home on Merrimack street, Wednesday afternoon, the 6th inst., in a manner both novel and enjoyable. For once, the regulation cards gave way to something in the line of musical guesswork, a delightful innovation. On five tables were arranged the objects of the party's wits. About forty people enjoyed Miss Pender's hospitality and all agreed that it was a most pleasant occasion. There were refreshments, and instrumental music and songs entered into the function. The favors that rewarded the successful guessers were as follows: First, a group picture of composers, Mrs. Benjamin Green; second, a work on great composers, (by Elson), Mrs. J. Ed. Pickering; third, a bust of Apollo, Mrs. E. Scott Owen; consolation, a very small music box, Miss Emma McGraw.

**JERE McAULIFFE COMPANY.**

Tom Edison, the Electrician, was presented at Music hall by the McAuliffe company on Wednesday evening, to the satisfaction of a good-sized audience. Mr. Heath carried the name part finely and Miss Pughley, as Edith Sessions, appealed to the admiration of all. Mr. McAuliffe supplied a lot of good comedy. The others in the cast were adequate to their work.

Again and the specialties please immensely. They are a very strong feature of the company and by themselves are worth the price of admission. In number and merit they are not equaled by any other repertoire company on the boards today.

This (Thursday) evening, the bill will be The Great Diamond Robbery, which will bring out the full strength of the troupe.
